How do you do? — English and American.  
How do you carry yourself? — French.  
How do you stand? — Italian.  
How do you talk yourself? — German.  
How do you fare? — Dutch.  
How can you? — Swedish.  
How do you perspire? — Egyptian.  
Have you eaten your rice? — Chinese.  
How do you have yourself? — Polish.  
How do you live on? — Russian.  
May thy shadow never grow less — Persian.  
And they all mean the same thing — Greetings to you.

### Scout Notes

**A Medicine Bottle Entrance Fee—**  
A novel feature of a Boy Scout drive for used medicine bottles for the Royal Canadian Army Medical Corps at Calgary, was a "medicine bottle" admission fee to a special swimming period at the Mewata Pool. The event produced 1500 bottles.

**English Boys Join Canadian Scouts—**  
The first report of English Boy Scouts was guests joining a Canadian Scout Troop, coming from Saskatoon. 20 year old Scouts of the 11th Middleborough Troop, Yorkshire, became members of the 1st Saskatoon (St. James Church).

### VALLEY GARDENS

The regular meeting of the Nightingale W. L. was held at the home of Mrs. Plath on Thursday last. A motion by Mrs. Arthur Kimmitt that each member send her name in to the Victory Wheel Programme of CPAC was received with acclamation and acted upon immediately. The sum of ten dollars was voted to be spent on Christmas boxes for the local men serving overseas. A box to be put in Nightingale store for the reception of soap wrappers. Those who have suitable wrappers are asked to bring them in and the money redemption will be given some charitable organization. A scheme to raise money for the Red Cross was discussed, and as soon as threshing operations are over it will be carried out. Further announcements will be made later. A course in rug making will be a feature of the winter meetings. A handkerchief sale was held with Mrs. Holt as auctioneer and the sum of \$3.08 was realized. The high light of the afternoon was an address given by Mrs. G. H. Patrick, president of the Strathmore Red Cross Society and the work it does, stressing particularly the fact that it is the only means by which parcels may be conveyed to prisoners of war in Germany. A hearty vote of thanks was accorded Mrs. Patrick at the conclusion of her talk. Mrs. Patrick was accompanied by Mrs. McMurray, Mrs. T. E. Wright, Mrs. A. P. Gray and Mrs. Fred Holmes. A delicious lunch was served.

In an excited voice, a woman called to the Pittsburgh morgue the other day and asked—Do you people have a missing man in the morgue who's 5 ft. 6 inches tall, weighs 155 pounds, wears a blue serge suit, and stutters?

Hitler has issued a decree limiting the sale of false teeth in Germany and occupied countries. But the "gunners" may derive a bit of comfort from the thought that there will not be much to eat this winter, anyway.

Man is always looking for home comforts in a hotel and for hotel service around the house.

## BRIEF NOTES ON PRACTICAL SUBJECTS

BY DAN CAMPBELL  
Publicity Representative for Alberta

**Costs of Water Conservation**  
Alberta government will assume the responsibility of operating and maintaining any water conservation or irrigation projects in Southern Alberta constructed by the federal government in the future, it was announced last week. Taking over by the province of bonds issued to finance the Lethbridge Northern and other projects has been a heavy burden, said Mr. Mulren, but the government appreciates the improved conditions of citizens in the areas. Since the province cannot undertake any large capital expenditures, though desirous of expanding irrigation works, this offer of co-operation was made by Premier Aberhart to Prime Minister King.

**Grading Of Eggs—**  
Out of 1200 persons engaged in grading eggs in Alberta only 200 are fully qualified to do so. This declaration was made by C. W. Traves, poultry commissioner for the province, when he addressed a meeting of the Edmonton Poultry and Poultry Stock association. Advocating producer control marketing and grading organizations, Mr. Traves said that in November all poultrymen of Alberta will have an opportunity to decide by ballot whether they wish to adopt retail and operating methods or continue under the present unsatisfactory system, with pure returns to the producer and a uncertain product for the consumer.

An advisory committee of poultrymen selected from a larger body which convened at the government's invitation is at present engaged in formulating a broad policy of producer control grading and marketing which will benefit both large and small producers as well as the consumer. The proposals of this committee will be presented to producers at more than 100 centres in November.

**Education for R.C.A.F. Recruits—**  
Prospective R.C.A.F. recruits who lack educational requirements have been given an opportunity to make up the deficiency by the Canadian Legion, which has sponsored a Monday evening class in the technical school where instruction in grades 10, 11 and part of 12 will be given. City teachers have been invited to donate their services, and the classes are under the direction of Donald Cameron, University of Alberta extension director. Interested men should apply at the R.C.A.F. recruiting centre, Provincial Building.

**Food Distribution—**  
Invited by W. D. King, deputy minister of trade and industry, to a Red Deer conference, 75 representatives of the business assisted by several members. Sixteen members and nine visitors were present. A special meeting is to be held in Nightingale Hall on Thursday, October 24th.

A meeting of the Girls' Club was held at the home of Mrs. A. R. Trimble on Tuesday evening October 15th. Seven members were present and a pleasant social evening was enjoyed. The local men have decided to join in the Victory Wheel programme of PAC and by the time this appears in print some lucky persons will have had a pleasant surprise. All those who are interested can join in the good work and keep the wheel turning.

## THE WORLD OF WHEAT

(By H. G. L. Strange)

Director—The "Crop Training Plan"

THE DANGER OF TOUGH GRAIN

Over many parts of the West, rain  
unfortunately has fallen on unthreshed  
grain. This condition brings in its  
train a difficult problem, and particu-  
lar care will have to be taken if the  
farmer is not to suffer serious money  
losses.Owing to the congestion in terminal  
elevators, grain from country elevators  
can now only be moved forward  
as space develops in the terminals.  
This space only becomes available as  
grain is milled in Canada or is shipped  
Overseas.All this means that grain now being  
taken in by country elevators is likely  
to stay there for a considerable time  
before it can be moved forward to  
terminals. Grain that is tough cannot  
remain in any bin either on the farm  
or in country elevators without incur-  
ring the risk of going out of condition,  
of becoming heated, and so of being  
seriously degraded. Indeed, tough and  
damp grain has been known to become  
heated to the extent that thousands of  
bushels had to be thrown on the rub-  
bish pile.The World's News Seen Through

## BUY APPLES

THE CANADIAN APPLE is the king  
of fruits. It is one of nature's best  
health foods and can be served in a  
greater variety of appetizing dishes  
than any other fruit.The Overseas market for this deli-  
cious food is greatly curtailed because  
of prevailing conditions, hence the ap-  
ple grows more dependent largely on  
the home market for the sale of their  
delicious fruits.Therefore while buying apples you  
are filling a two fold service, that of  
providing your family with good  
health giving food and providing an  
increased market for the Canadian  
apple grower.

Buy apples and eat them freely.

## THE NEW SPIRIT

ONE OF THE MANY surprises the  
old soldier gets out of this new war is  
the attitude of the infantry toward  
the new men. When the special train  
came in from Calgary on Wednesday  
the old soldiers heard a sergeant with  
a row of service decorations tell the  
lads in a friendly voice to turn to  
ward him. It was quite a shock. Those  
who had memories of a course of in-  
struction under "Glad" sergeant, could  
hardly believe their ears, but it was  
true, just the same. The tongue that  
cuts like a knife has no place in this  
new scheme of training, and the men  
are being treated with the respect that  
they deserve. There is no hint of  
slackness in this, rather the reverse.Under the new system the spirit is  
keen, more alert and certain to  
produce better results. Using a  
modern intelligence is proving to be espe-  
cially profitable to the country than  
the old system of burying it. —Red  
Deer Advocate.This is as it should be. It is a tri-  
bute to our progressive humanitari-  
anism that the officers are now adopting  
the methods mentioned above. Be-  
cause a man does the king's uniform  
certainly should not subject him to  
being brow-beaten, and buffeted as so  
many wooden automatons, lacking any  
sensitive feeling.The new method is a part of the  
Democracy which we are fighting for  
and hope to see established.In the past tough grain taken in at  
country elevators moved quickly to  
the terminals where it was dried by  
special machinery. This year, however,  
it is evident that tough grain cannot  
possibly be moved with the same speed  
as in the past.Under these circumstances farmers  
whose grain is threshed or combined  
when it is tough will almost certainly  
find that no country elevator will be  
able to accept it, because of the fear  
of it going out of condition, and even  
though the farmer should store this  
tough grain in a bin on his own farm,  
there will still be the same high prob-  
ability of heating and so of severe  
money loss to the farmer.

## Canseland

While loading grain last week at  
one of the machines in the Strangmuir  
district Joe Giles got his hand caught  
in the belt and suffered severe injur-  
ies. He was obliged to go to the hos-  
pital but expects to return home soon.Boarder—These biscuits are smaller  
than usual aren't they?  
Cook—Yes I made them smaller so  
that you would have less to find  
fault with.

## THE BREAK OF DAY

—Ruth Browning.

Day—

Faster and more fast,

O'er night's rim, day boils at last,

Boils, pure gold, o'er the cloud-cup  
brim.

Where spurring and suppressed it lay,

For not a froth-like touch the rim

Of yonder sun in the grey.

Of the eastern cloud, an hour away,  
But forth one wavelet, then another  
curled.Till the whole sunrise not to be sup-  
pressed,Rose, reddened, and its seething  
breast,Flashed in bounds, grew gold, then  
overflowed the world.Are you not reveling in these mag-  
nificent morning skies when we are flood-  
ing the Eastern horizon with such in-  
describable beauty and majesty?Let us all drink to the full of this  
exquisite beauty and so fill our souls  
with an ecstasy that will carry us  
through the day.We make no apology for reprinting  
these beautiful lines in the above  
space.They are a beautiful work picture  
of an exalted work of nature and  
both are sublime.

—1911—

## WINSTON CHURCHILL

A REAL NATIONAL LEADER

NO SMALL measure of Mr. Churchill's  
popularity and strength is derived  
from a vivid picture of what he is  
in record, that he regards the fortunes  
and future of any party as due in the  
balance compared with the safety of  
the nation and of the democratic prin-  
ciple which it holds dear. Hence it  
comes that the British nation, now  
plunged once more into the awesome  
crucible of war, has taken him to its  
heart with pride as the protagonist of  
free civilization and of what we under-  
stand by political humanism.

—1911—

## EXTENSIVE FRUIT ORCHARDS

IN STRATHMORE

CONVINCED that our district can  
successfully grow fruit bearing trees,  
Mr. A. Griffin, Supt. of the C. P. R. D.  
is putting his theory into action by  
having prepared two quite large fruit  
orchards— in which about 3000 trees  
of various varieties have been planted.This is a fine progressive move by  
him, the district becoming more inter-  
esting and employment for more men  
be provided.Showing that the idea is taking root  
in increased interest, apples are now  
being shown as examples of what trees  
be produced and more and more people  
are adding a few fruit trees to their  
gardens.

—1911—

## EASY MONEY—

This is a great country, Pat.

And how's that?

Sure, the paper see yes can buy a  
fifty dollar money order for three  
cents.

—1911—

## Emergency

Call

CANADIAN RED CROSS

Increased Output of  
Cod Liver OilWar has brought rapid expansion of  
cod liver oil processing in Canada.Up to a year ago, 75 per cent of the  
cod liver oil used in Canada was im-  
ported. German occupation of Norway  
cut off a main source of supply. For a  
time there was danger of serious  
shortage it was decided to develop the  
Canadian industry.Already such progress has been  
made in the Maritime Provinces and  
eastern Quebec as to give promise of  
ultimate self sufficiency.Sixteen new cod liver oil plants,  
many of them small, and some still in  
the experimental stage, are now oper-  
ating on the Atlantic Coast and eight  
plants have enlarged their facilities  
looking to an increased output. Total  
production of cod liver oil this year  
is expected to be approximately 200,  
000 gallons compared with a produc-  
tion of 63,000 gallons in 1938 and  
54,000 gallons in 1939. This oil is suit-  
able for use as medicinal oil or as a  
feeding oil for livestock and poultry.In addition a production of a low  
grade cod liver oil known in the  
trade as "common cod oil" and suit-  
able only for industrial uses amount-  
ing to 100,000 gallons in 1938 and  
120,000 gallons in 1939, will be obtain-  
able.

—1911—

## Wife—

Did you notice that Mrs.

Jones has another new hat?

John—

(Thinking fast) Yes and if

she were as attractive as you, honey,

she wouldn't have to depend on mil-  
linery so much.

—1911—

## SEEDTIME

AND HARVEST

By Dr. K. V. Worthy

Director, Agricultural Department  
North-West Line Elevators AssociationShort articles will appear under  
the above heading in this and other  
weekly papers once every two weeks.The agricultural publication, "Seed-  
time and Harvest," is already fami-  
lar to many farmers and others in  
the prairie provinces. These fore-  
front articles will, we hope, serve  
as a useful supplement to the larger  
publication which appears only twice  
each year.Our purpose is to stimulate in-  
terest in, and discussion of, various  
problems involved in the production  
of field crops not only among farmers  
but, also, the public in general. The  
problems are manifold, and they vary  
not only from one district to another,  
but from year to year.Naturally, many readers will dis-  
agree with views expressed in the  
columns. We believe that it will be  
wise to plunge recklessly into con-  
troversial problems concerning field  
crop production; but our courage  
will fail when economic questions  
arise. We shall hope to hear from  
readers who disagree or who may  
have suggestions to offer.Two weeks from today a discussion  
of black point and kernel smudge  
in wheat will appear. Later, articles  
deal with dormancy in seed,  
seed treatment problems, flow flax,  
etc. We shall also consider the be-  
lief that early fall frosts are more  
likely to occur when the moon is  
full than at other times.Our address is Agricultural De-  
partment, North-West Line Elevators  
Association, Winnipeg.

## SEEDTIME

AND HARVEST

By Dr. K. V. Worthy

Director, Agricultural Department  
North-West Line Elevators AssociationCANADA YEAR  
BOOK

COPIES READY

The publication of the 1940 edition  
of the Canada Year Book, published  
by authorization of the Hon. J. A. Mac-  
Kinnon, Minister of Trade and Com-  
merce, is announced by the Dominion  
Bureau of Statistics, The Canada Year  
Book is the official statistical annual  
of the country and contains a thor-  
oughly up to date account of the natu-  
ral resources of the Dominion and  
their development, its history of the  
country, its institutions, its demo-  
graphy the different branches of pro-  
duction, trade, transportation, finance,  
education, etc.—in brief a comprehen-  
sive study within the limits of a single  
volume of the social and economic con-  
ditions of the Dominion. This new edi-  
tion has been thoroughly revised  
throughout and includes in all its  
chapters the latest information avail-  
able up to the date of going to press.The 1940 Canada Year Book extends  
to over 1,200 pages, dealing with all  
phases of the national life and more  
especially with those susceptible of  
statistical measurement. A statistical  
summary of the progress of Canada is  
included in the introductory matter,  
enormous a picture in figures of the  
remarkable progress which the coun-  
try has made since the first census of  
the Dominion was taken in 1871, 69  
years ago. Persons requiring the Year  
Book may obtain it from the King's  
Printer, Ottawa, as long as the supply  
lasts, at the price of \$1.50, which cov-  
ers merely the cost of paper, printing  
and binding. By a special concession,  
a limited number of paper bound cop-  
ies have been set aside for ministers  
of religion, bona fide students and  
school teachers, who may obtain cop-  
ies at the nominal price of 50 cents  
each.

—1911—

## TRAIN RIDDLE—

How long does it take a train one  
mile long to go through a tunnel one  
mile long, if the train is going a mile  
a minute? — See answer on page 1

—1911—

## One night near Christmas,

Mrs Smith looked out of her window and  
saw a picture of a man in a picture  
framed! Look, the Browns are  
carrying in the Yule log! Yule log!  
said Mr Smith. That's no Yule log,  
that's Brown!

—1911—

## EASY MONEY—

This is a great country, Pat.

And how's that?

Sure, the paper see yes can buy a  
fifty dollar money order for three  
cents.

## Emergency

Call

CANADIAN RED CROSS

Increased Output of  
Cod Liver OilWar has brought rapid expansion of  
cod liver oil processing in Canada.Up to a year ago, 75 per cent of the  
cod liver oil used in Canada was im-  
ported. German occupation of Norway  
cut off a main source of supply. For a  
time there was danger of serious  
shortage it was decided to develop the  
Canadian industry.Already such progress has been  
made in the Maritime Provinces and  
eastern Quebec as to give promise of  
ultimate self sufficiency.Sixteen new cod liver oil plants,  
many of them small, and some still in  
the experimental stage, are now oper-  
ating on the Atlantic Coast and eight  
plants have enlarged their facilities  
looking to an increased output. Total  
production of cod liver oil this year  
is expected to be approximately 200,  
000 gallons compared with a produc-  
tion of 63,000 gallons in 1938 and  
54,000 gallons in 1939. This oil is suit-  
able for use as medicinal oil or as a  
feeding oil for livestock and poultry.In addition a production of a low  
grade cod liver oil known in the  
trade as "common cod oil" and suit-  
able only for industrial uses amount-  
ing to 100,000 gallons in 1938 and  
120,000 gallons in 1939, will be obtain-  
able.

—1911—

## Wife—

Did you notice that Mrs.

Jones has another new hat?

John—

(Thinking fast) Yes and if

she were as attractive as you, honey,

she wouldn't have to depend on mil-  
linery so much.

—1911—

## SEEDTIME

AND HARVEST

By Dr. K. V. Worthy

Director, Agricultural Department  
North-West Line Elevators AssociationShort articles will appear under  
the above heading in this and other  
weekly papers once every two weeks.The agricultural publication, "Seed-  
time and Harvest," is already fami-  
lar to many farmers and others in  
the prairie provinces. These fore-  
front articles will, we hope, serve  
as a useful supplement to the larger  
publication which appears only twice  
each year.Our purpose is to stimulate in-  
terest in, and discussion of, various  
problems involved in the production  
of field crops not only among farmers  
but, also, the public in general. The  
problems are manifold, and they vary  
not only from one district to another,  
but from year to year.

Naturally, many readers will dis-

## Local News Items

Mrs. S. Hyde who has been quite ill  
her home for several days is now im-  
proving. We hope for relief from the  
pain soon.

Mr. Reeves, former resident of  
Strathmore, his daughter and son-in-  
law Mr. and Mrs. Frank Mertens, and  
Mr. Mertens, Sr. were holiday visitors  
at the home of Mr. and Mrs. S. Hyde.

Mr. and Mrs. Harry Woods, Mrs.  
Coyle and son Peter were Strathmore  
visitors Sunday last.

Dr. and Mrs. Care of Philadelphia,  
who have been guests of Mr. and Mrs.  
A. Pierson of Cheadle for the past  
three weeks left for their home Mon-  
day.

A very special treat is being provid-  
ed in the Lecture to be given follow-  
ing the Chicken Supper in United  
Church Tuesday, October 29th, when  
Mr. Dan McCowan of Banff will give  
an illustrated Lecture, showing over  
300 slides.

Mr. and Mrs. Stanley Korek have an-  
nounced the former's mother Mrs. Korek  
of Calgary for a couple of weeks.

Mr. and Mrs. Stanley Korek have an-  
nounced the former's mother Mrs. Korek  
of Calgary for a couple of weeks.

A Curling Meeting will be held soon.  
Watch for the date.

A Service of Remembrance is being  
arranged and will be held as usual un-  
der the auspices of the Canadian Leg-  
ion, Sunday, November 10th. Watch  
for fuller announcement.

Mr. Billy Williams has secured em-  
ployment as chef in a Hanna hotel.

Mr. Dan McCowan of Banff who will  
give a Sunday illustrated lecture in the  
United Church October 29th is known  
throughout the North American con-  
tinent and in the Old Country for his  
illustrated lectures upon the beauty of  
the Rocky Mountains. Thornton N.  
Burgess, the writer of nature stories  
for children writes: "It is long, very  
long since I have so successfully en-  
joyed a lecture, or spent so profitable an  
evening. I congratulate you on your  
wonderful pictures. You made us feel  
not only the wonder and grandeur of  
your beloved mountains but you  
brought home to us the intimate  
beauty of life there in its manifold  
phases, and a new conception of the  
infinite." Signed, Thornton Burgess.

The Boy Scouts will sell Poppies on  
the Strathmore Streets Saturday,  
November 24th. Buy a poppy and help  
the War Veterans.

United Church Ladies Aid Annual  
Pewl Supper, October 29th, beginning  
at 5:30 o'clock. Adults 50c, children  
14 years and under 25c.

Last Friday claimed Mrs. Nola  
White as hostess at a very enjoyable  
Dessert Bridge, with Mrs. Care as guest  
of honor. Following choice refresh-  
ments bridge was played at the table,  
some interesting games resuming.  
Winners of high and consolation  
scores were Mrs. Van Tighem and Mrs.  
Ceil Lambert.

Mrs. Stanley Lutz was taken to the  
Calgary General Hospital last Satur-  
day. She is under Dr. MacKinnon's care,  
and it is hoped for a speedy return  
to health.

Complimenting Mrs. Lambert, Mr.  
Mrs. Ceil Lambert arranged a very  
delightful bridge of three tables at her  
home Tuesday evening. Halloween  
decorations artistically carried out  
in the refreshments also, were the  
subject of many complimentary com-  
ments. Winners of the pretty prizes  
were Mrs. T. H. Wright and Mrs. G. H.  
Patrick.

Mr. and Mrs. McElloch of Calgary  
were Strathmore visitors Sunday last  
at the home of Mr. and Mrs. Griffin.

Mrs. Ridley invited a few friends to  
tea Wednesday to have a chat with  
her mother prior to her departure for  
Toronto, Friday.

Mrs. Bruchere and baby son returned  
to her home in Strathmore Sunday  
of last week.

The Sorosis Society met this after-  
noon at the home of Mrs. M. McLeod.  
Eight tables were in play.

Household  
Hints

By MRS. MARY MONTON

Sausages and waffles may be served  
for lunch on Sunday morning,  
or for a Sunday night supper—as  
you please. Either will please your  
guests, too. Serve orange juice or  
grapefruit for breakfast, tomato  
soup as a starter for the Sunday  
night supper.

## Today's Menu

Orange or Tomato Juice  
Sausages, either Meat or Links  
Waffles Syrup Toast  
Jam or Marmalade Coffee

If not seasoned to your liking,  
you may add a little more salt,  
pepper and dried sage to the meat,  
then make into flat cakes. Fry in  
hot frying pan over slow fire, turn-  
ing as one side browns and brown-  
ing nicely. Be sure to cook through  
and do not cook until meat is dry.

## Sausage Links

Separate links, prick sausage  
with fork, and put into frying pan.  
Pour boiling water over them for  
just one minute, then pour off and  
fry slowly until brown all over, but  
not dried. Or put cold water over  
sausages in frying pan, let come  
to simmering point, then pour water  
off and fry until done.

## Waffles

2 eggs  
1 cup milk  
1 1/2 cups flour  
1/2 teaspoon baking powder  
1/2 teaspoon salt  
Separate whites and yolks of eggs,  
beat whites light, then beat the  
yolks and add milk to yolks. Beat  
sall and baking powder with flour  
and add to yolks and milk, then add  
melted butter, and fold in beaten  
egg whites. Bake on hot waffle  
iron.

## Pancakes or Waffle Syrup

1 cup brown sugar  
1 cup water  
5 cup granulated sugar  
Cook until syrup begins to thread.  
You can use it hot over cakes or  
rice.

St. Michael's W. A. is holding the  
second house-to-house Bridge Party  
this Thursday evening. Hostesses are  
Mesdames Ridley, May, Fessenden,  
Hyde and Lowney.

## IN MEMORIAM

In loving memory of our dear his  
band and father Jas. May, who passed  
away October 25th, 1928.  
Ever remembered by his wife and  
family.
